

# The Secretary<sup>Ts</sup>

## Developer's Note

---

The Developer's note to all the users and developers

# NOTE

IT WON'T HURT TO READ A SMALL DOCUMENT, STILL MORE VALUABLE THAN SCROLLING YT SHORTS

**Dear Readers,**

*I deeply appreciate everyone reading this, and using The Secretary bot. This started as my hobby and still is much of a hobby as of course we don't earn anything meaningful from this, regardless we offer premium to keep its services alive for all people.*

*The latest **Version 5.3 (collectively version 5)** has been a greatest update of all time for the bot, so long that I couldn't even complete the developers log on this. Well sooner or later I will complete it, just like I did the user manual document which was pending for so long.*

*To all users and developers, with this **I no longer find anything of more value to add to The Secretary**, I've spent a lot of time developing this and I must say it was worth every second but whatever begins should always come to an end. This does not mean The Secretary will go offline or anything like lost support like last time.*

*It just means that do not expect any new features from the bot at least not any time soon! I've been told to touch grass, so yeah that's exactly what I am going to do! Well bugs and glitches will be solved if you post them at the [Official Server](#).*

*A quality of life for V5.3.7 will be published or might have already been published that's going to be it for a while, I hope. Well, I just want you all to thank you for your support, it took me a year to reach this point and over 50 servers and more than 2k users that is not small in any respect!*

*To the developers, thank you for helping me in this journey, I hope this journey will continue but I am not so sure.*

*To everyone well to help us increase the life of the server we would absolutely appreciate you to buy us coffee or buy premium! Regardless we will always try our best to keep this going!*

**Peace out!**

**The Developer**
